SUMMARY

Results-driven Front-End Developer skilled in building responsive and scalable web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Experienced in developing clean UI/UX with modern design principles and component-based architecture. Passionate about performance optimization, reusable code, and delivering seamless user experiences.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks: React.js

Styling: Bootstrap, Tailwind CSS

Concepts: Responsive Design, Mobile-First Design, Cross-Browser Compatibility, Component-Based Architecture

Tools: Git, VS Code, Chrome DevTools

PROJECTS

Portfolio Website

- Designed and developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript.
- Implemented mobile-first design ensuring compatibility across devices and browsers.
- Improved page load performance by optimizing assets and minimizing CSS/JS.
- Showcased projects and skills with a clean, intuitive UI increasing user engagement.

To-Do Application (React)

- Developed a dynamic task management application using React.js.
- Implemented features like add, delete, and track tasks using state management.
- Applied component-based architecture for scalability and maintainability.
- Enhanced user experience with responsive UI and smooth interactions.

EDUCATION

Birla Institute of Applied Sciences

Bachelor of Computer Applications (BCA)

ACHIEVEMENTS

- Built multiple responsive web projects demonstrating strong frontend fundamentals.
- Actively learning and implementing modern frameworks like React.js.

- Consistently improving problem-solving and debugging skills.

STRENGTHS

- Strong problem-solving mindset
- Quick learner and adaptable
- Detail-oriented development approach
- Passion for continuous learning
